

Velkommen til Nordregio: ” Good policy decisions can only be made on the basis of reliable information”

For at byde Nordregio velkommen som REG LAB medlem har vi spurgt dem om hvem de er, hvordan de bidrager til erhvervsudviklingen og hvorfor de vil være medlem. Denne gang er det på engelsk.

Hvad er Nordregio?

Nordregio is a leading international Nordic research institute in the broad field of regional studies. We undertake strategic research with the aim of producing informed and relevant material for decision-makers at the international, national and regional levels.

Hvad er jeres væsentligste aktiviteter og hvordan bidrager I til erhvervsudviklingen?

Nordregio operates in the field between research and policy development within a wide range of topics. Regional development, urban and rural systems, demography, governance and gender, innovation and knowledge, green growth, international energy policy, global climate change and local adaptation are among our major areas

of interest. Our research competencies include the production of high-quality maps and the development of state of the art statistical databases. One of Nordregio's most important tasks is to contribute to the development of regional policy and growth in the Nordic countries. Good policy decisions can only be made on the basis of reliable information.

Hvorfor har I meldt jer ind i REG LAB?

The main reason for Nordregio to become a partner of REG LAB is get a closer contact with local and regional authorities in Denmark. In the long-term perspective we aim at establishing a Nordic network on regional policy and development. The conference Attraktionskraft Norden is a first step in that direction

(<http://www.nordregio.se/Events/Nordic-Attraction/>).

FAKTABOKS: Bagom Nordregio

Nordregio is an independent institute under the Nordic Council of Ministers. It was established in 1997 through an amalgamation of three institutes, Nordplan, Nordrefo and Noggrann. Nordregio is situated in Stockholm. Nordregio has an annual turnover of approximately 5 mill. EUR and 30 staff members. www.nordregio.se
